There are many reasons to love International Art Properties. Best of all, fine porcelain vases are the Designer's choice for accessories because they work with every style. Look at all you can do...

Classic

The Classic design style conveys a sense of structure, order, and strength. Taken in a Baroque direction, it is imbued with a sense of luxury and the finer things in life.

As a style, Classic uses antiques or pieces reminiscent of the Roman or Greek periods. There is order and symmetry.

Fine Porcelain has been available for over 2,000 years and is a mainstay in the Classic style, both as vases and custom lamps.

Contemporary

Clean smooth lines, light wood tones, and furniture free of ornamentation are hallmarks of a Contemporary / Modern design.

It's easy to tie open area rooms together or brighten up a small space with a colorful or de-saturated porcelain vase. Need chrome to make the space pop? We have it!

Eclectic

Eclectic style weaves a common thread with pieces from various periods. Even though neutrals are used, it's all about rich and exquisite textures with an eclectic design, while coordinating the room with a prominent color, or two, or three.

The abundance of color choices and textures makes fine porcelain perfect for an eclectic design. From creative to colorful, carry the color from an accent wall through the space.

Minimalism

In some ways, Minimalism is the evolution of Oriental style. Yet instead of fancy patterns and ornamented furniture, everything is reduced to only the necessary elements. To make the room inviting, a colorful focal point is used to add energy to a cold room and create a space.

That makes Fine Porcelain ideal for minimalism. It's as easy as putting a beautiful vase with matching painting in a white room.

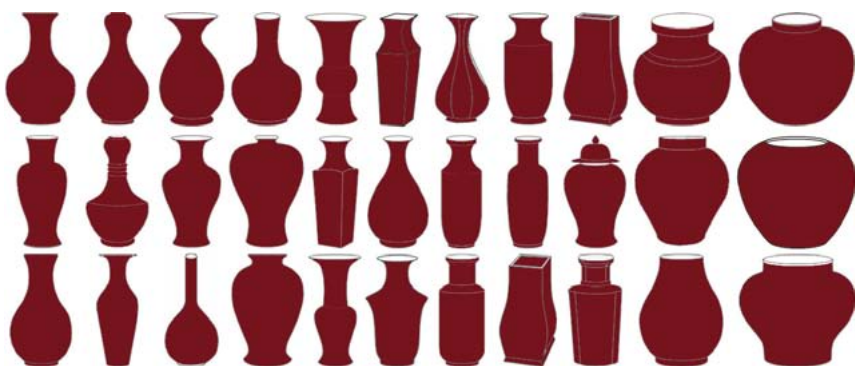

Oriental

For some reason, Non-Designers think of Oriental style when they hear the term "Fine Porcelain Vases." Expert Designers know that Fine Porcelain can be used in every style and virtually every design.

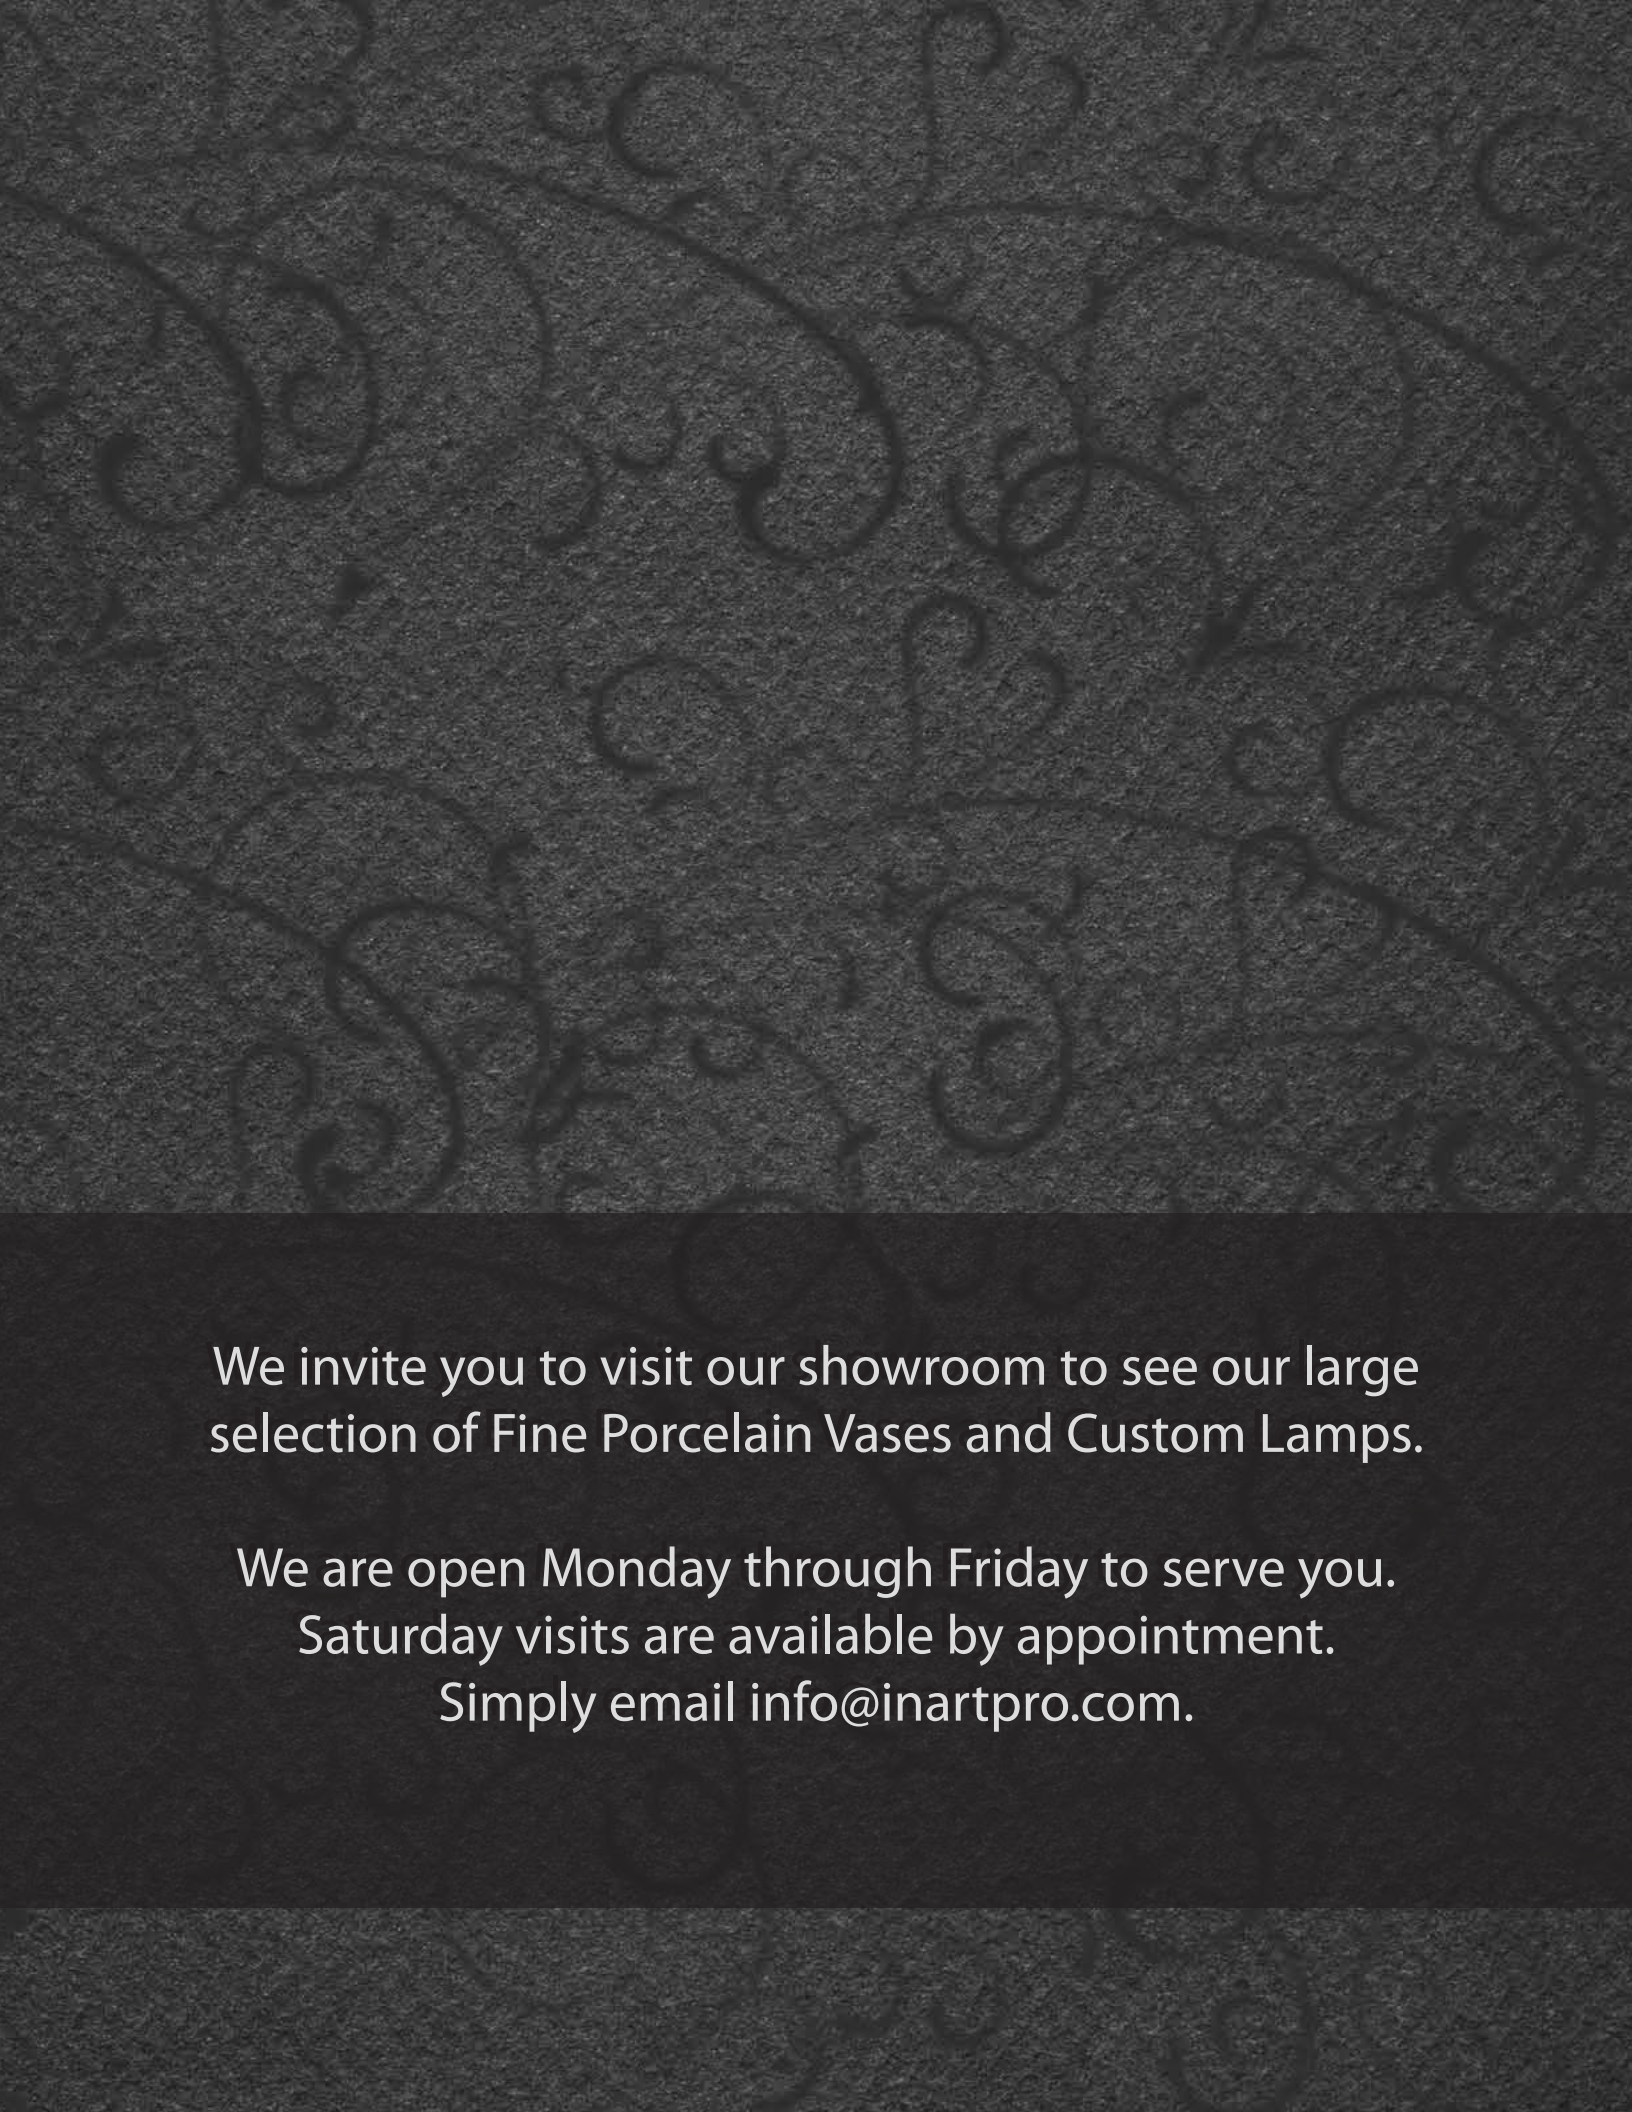

But if you are creating a personal environment influenced by the Orient, there is no better source for authentic dynastic reproductions made by Master Craftsmen.
